FAMILY TIME

STILL POSSIBLE, EVEN WITH ZOMBIES.

any of us won't be flying solo for "the big one." As a husband and father or wife and mother, we'll have a spouse and perhaps children who will depend on us for both physical and emotional comfort. While I won't argue that the emergence of zombies is a good thing, it does guarantee copious amounts of family time for our immediate future. Even if your family situation isn't ideal, it's a safe bet that we'll all experience some clarity and understanding when our lives hang in the balance. Here are a few things that each family member should remember and prepare for before the dead rise.

Guns in K–12 Schools

- Current law allows anyone with CHL to bring gun into schools.
  - Do not have to tell school they have a gun.
  - Do not have to show CHL.
  - School cannot verify if they have a CHL.
Coalition Formation

- We built a list of organizations and gained endorsements for legislative agenda
  - Indicate support for specific bills
  - Range of active or passive support (use name/logo, email members, government relations staff time, testify)
For these reasons, and many others, we support the adoption of SB 347.

Dozens of area mothers and their children packed the Oregon State Capitol to demand tougher gun laws, June 13, 2013 (KOIN 6 News)

SALEM, Ore. (KOIN) – Dozens of area mothers and their children packed the Oregon State Capitol Thursday morning to demand tougher gun laws.

The "Stroller Jam" was coordinated with many other events nationwide to mark the six month anniversary of the massacre at Sandy Hook Elementary in Newtown, Connecticut.

In Oregon, the mothers want to see action on Senate Bill 700, which would create background check requirements for nearly all gun sales in the state.
