

Coordinated Care Organizations

How Do They Do?

Michael C. Huntington M.D.
Oregon Public Health Association Meeting
October 14, 2014

“There are two causes of ill health:
one is biological
the other — **political.**”

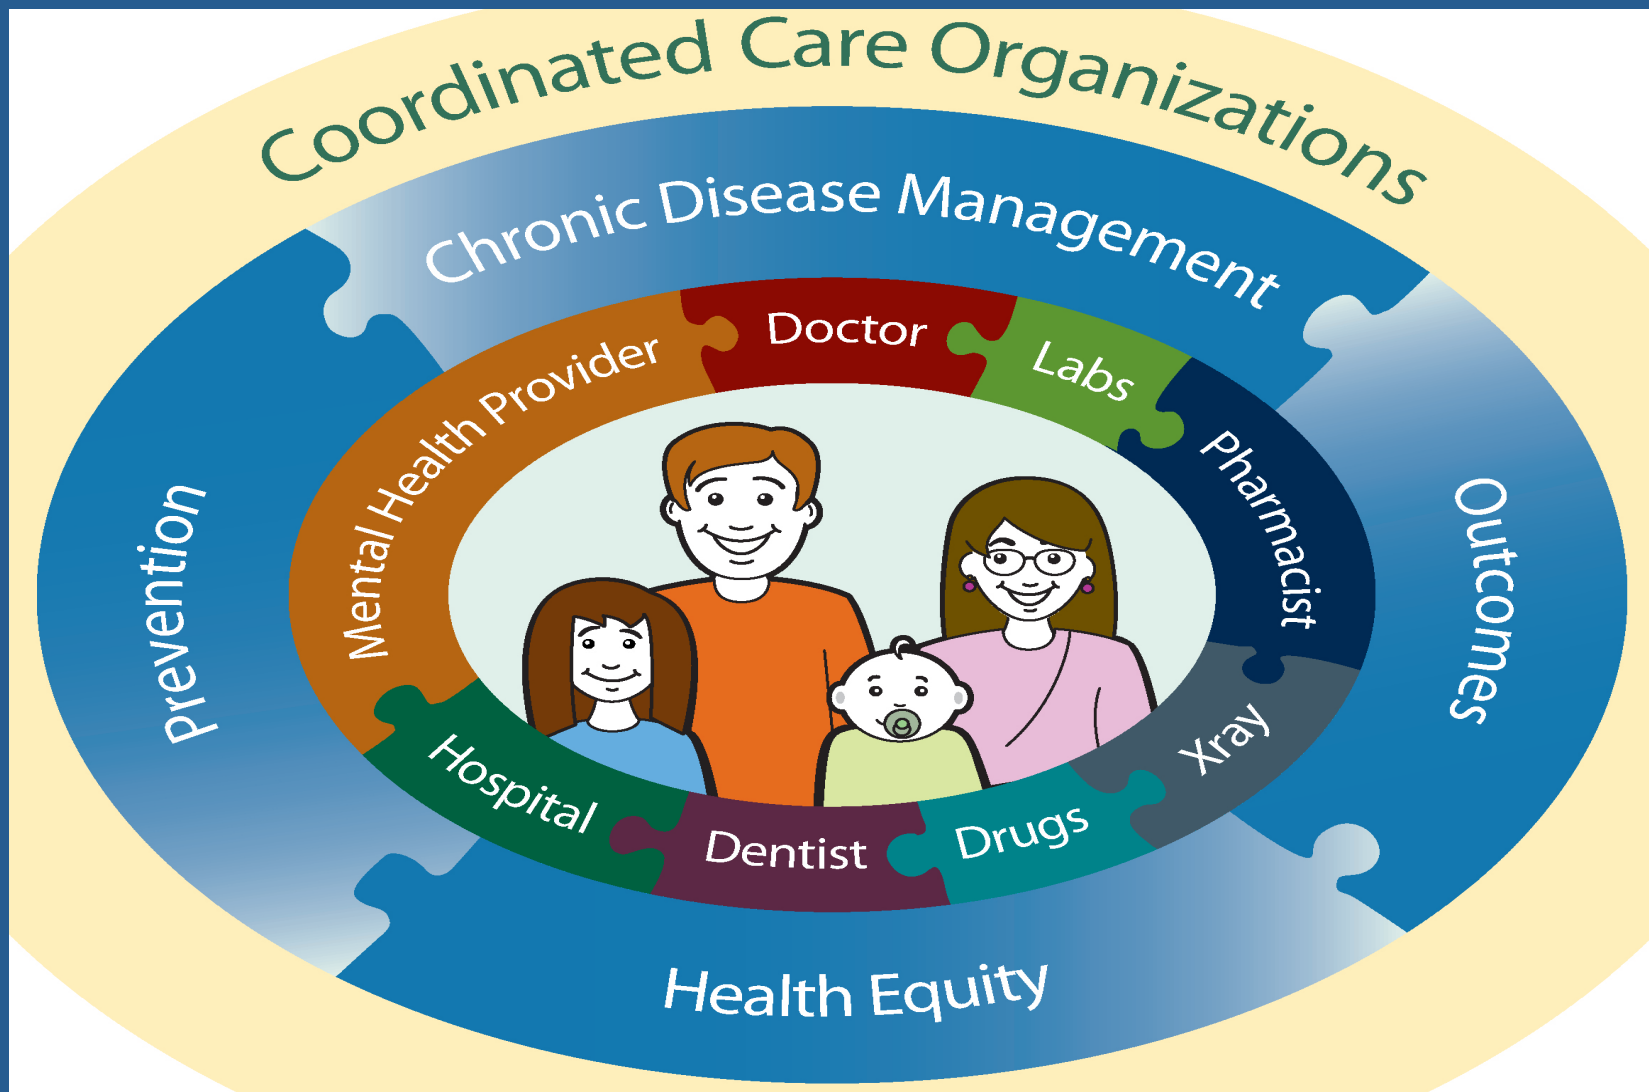

William Virchow

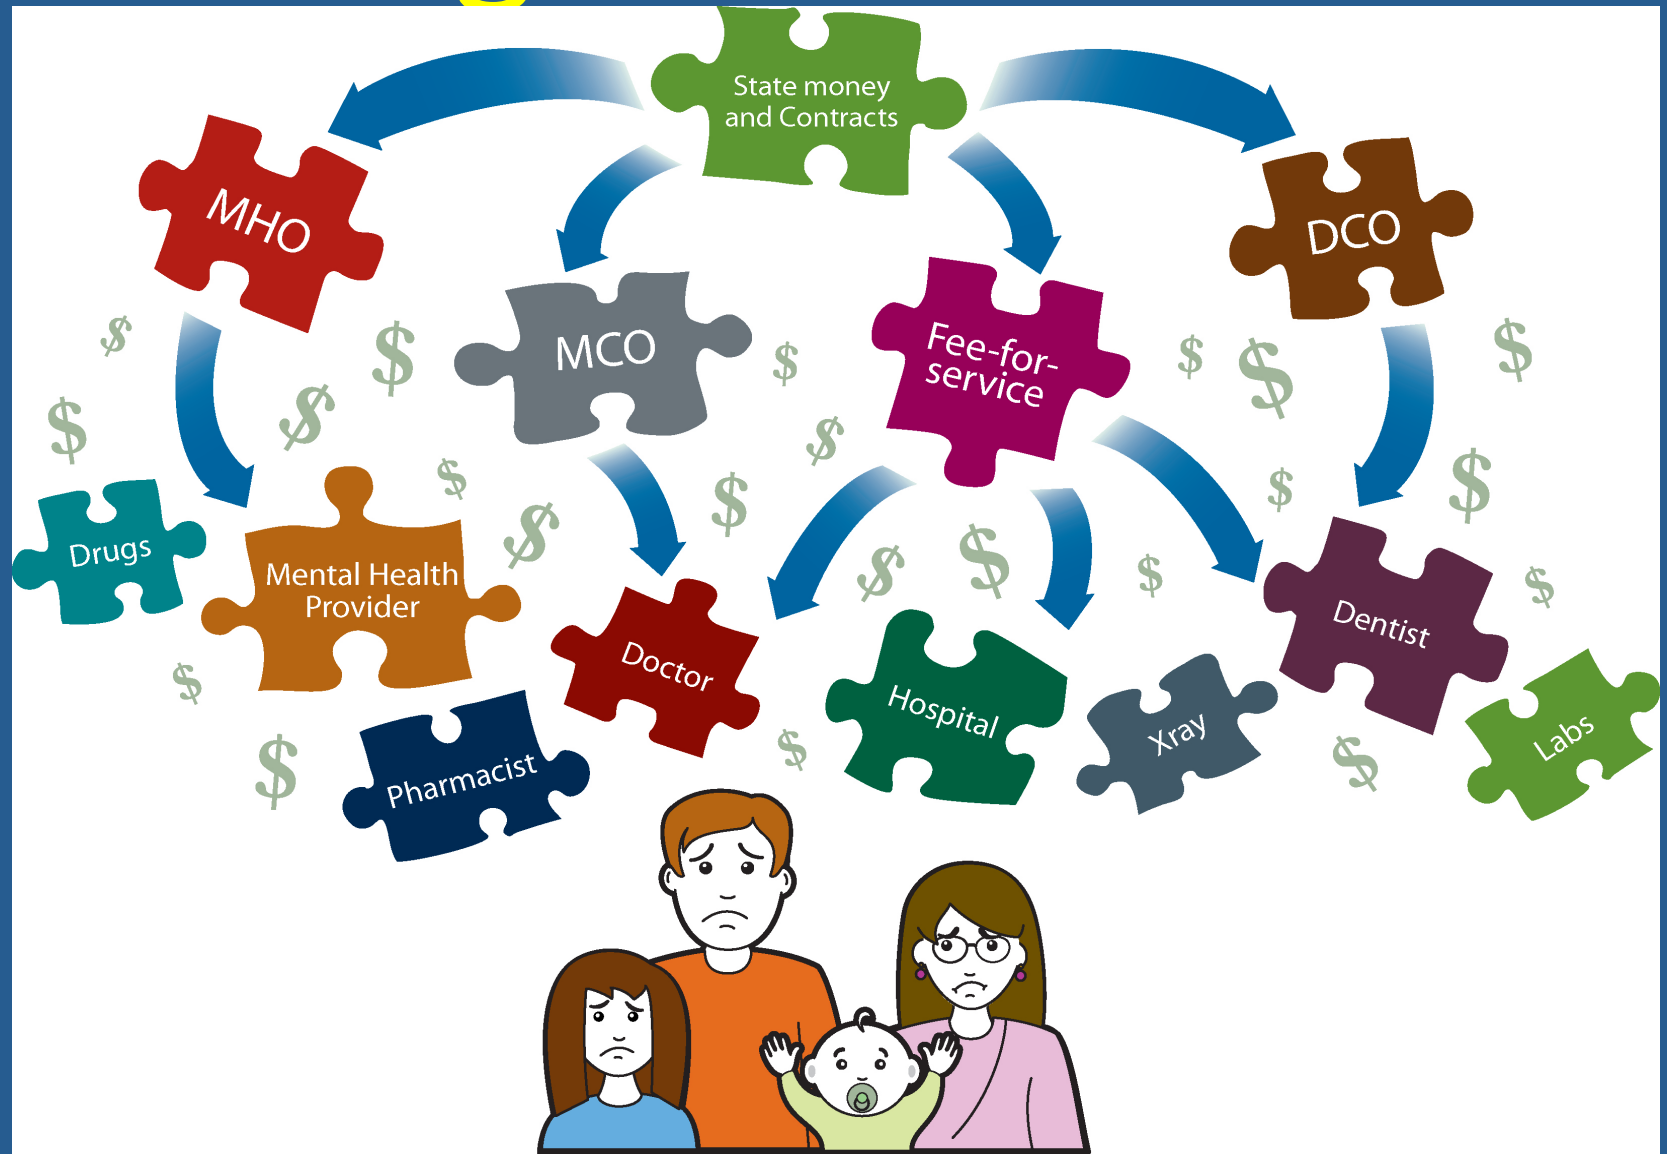

German Pathologist University of Berlin, 1848

There are two causes of
health:
one is biological
the other —
political.

Health for a Better Future.

CCO model of care *delivery* and capitated *payments* are working and vital to success

Determining who “deserves” care is too costly and disruptive, we must include everyone

Public must oversee use of its health care tax money and bargain for price with providers

It's up to us to make the CCOs the best they can be at serving the public at large
